CONTENTS FOR
FLUID MECHANICS-Soviet Research
Volume 13, Nos. 1-6, 1984

NUMBER 1

1 Analysis of Three-Dimensional Flow of a Two-Phase Fluid in the Flowpassage of an Axial Turbine Stage
F.N. Babot and V.P. Polukhin

6 Investigation of Void Fraction in the Tube-to-Tube Space of Steam-Generating Tube Banks with Complex Flowpath Geometry
P.A. Andreyev, B.S. Fokin and A.S. Solodovnikov

13 Simulation of the Particle Size Distribution of Marine Aerosol in Testing of Marine Gas Turbines
A.Yu. Lastovtsev and Ya.F. Roslik

19 Contribution to Theory of Similitude of Subsonic Flow
A.A. Shagayev

31 Supersonic Flow over Bodies in the Case of Massive Blowing
I.I. Vigdorovich and V.A. Levin

69 Nonequilibrium Phenomena in Gasdynamics and Highly Excited Molecules
N.K. Makashev

85 The Relationship between the Power-Law and Logarithmic Velocity Profiles in Analysis of Turbulent Flow in Smooth Pipes
V.S. Yelizarov and R.Ye. Levchenko

90 Investigation of Droplet Entrainment in Bubblers-Type Evaporators Equipped with Damping Devices
L.S. Sterman and A.A. Solov'yev

96 New Methods for Calculating the Thermophysical Properties of Liquids and Gases under Conditions of Low Thermodynamic Stability
L.P. Filippov

104 "Swallowing" of Floating Solids by Vortex Funnels
A.S. Dudko

111 Hydraulic Drag of Perforated Plates
G.I. Derbunovich, A.S. Zemskaya, Ye.U. Repik and Yu.P. Sosedko

NUMBER 1

1 Analysis of Three-Dimensional Flow of a Two-Phase Fluid in the Flowpassage of an Axial Turbine Stage
F.N. Babot and V.P. Polukhin

6 Investigation of Void Fraction in the Tube-to-Tube Space of Steam-Generating Tube Banks with Complex Flowpath Geometry
P.A. Andreyev, B.S. Fokin and A.S. Solodovnikov

13 Simulation of the Particle Size Distribution of Marine Aerosol in Testing of Marine Gas Turbines
A.Yu. Lastovtsev and Ya.F. Roslik

19 Contribution to Theory of Similitude of Subsonic Flow
A.A. Shagayev

31 Supersonic Flow over Bodies in the Case of Massive Blowing
I.I. Vigdorovich and V.A. Levin

69 Nonequilibrium Phenomena in Gasdynamics and Highly Excited Molecules
N.K. Makashev

85 The Relationship between the Power-Law and Logarithmic Velocity Profiles in Analysis of Turbulent Flow in Smooth Pipes
V.S. Yelizarov and R.Ye. Levchenko

90 Investigation of Droplet Entrainment in Bubblers-Type Evaporators Equipped with Damping Devices
L.S. Sterman and A.A. Solov'yev

96 New Methods for Calculating the Thermophysical Properties of Liquids and Gases under Conditions of Low Thermodynamic Stability
L.P. Filippov

104 "Swallowing" of Floating Solids by Vortex Funnels
A.S. Dudko

111 Hydraulic Drag of Perforated Plates
G.I. Derbunovich, A.S. Zemskaya, Ye.U. Repik and Yu.P. Sosedko

117 Conjugate Heat Transfer in a Contact-Type Film Evaporator
L.A. Gutorova, O.V. Dobrocheyev and P.G. Udyma
125 Approximate Solution of the Problem of Combined Radiative and Convective Heat Transfer
B.G. Aksenov, Yu.S. Danielyan and N.A. Rubtsov
130 The Effect of Emissive Properties of Metal Surfaces in Short Gaps on the Radiant Heat Transfer
N.A. Rubtsov, V.B. Masyagin, V.V. Shalay, N.V. Shepelev and A.A. Yemel'yanov
137 Stability of Separated Flow in a Dihedral Corner
A.V. Dovgal' and V.V. Kozlov
144 A Stand for Investigating the Thermohydraulics of Transporting Liquefied Natural Gas
S.M. Kuts, V.A. Cherepanov and A.D. Frolov

NUMBER 2

1 Experimental Study of Phenomena Accompanying the Collision between Droplets and Solid Particles
V.V. Dubrovskiy, A.M. Podvysotskiy and A.A. Shrayber
6 Evaluation of the Subsonic Gas Flow in the Discharge Pipe of a Reciprocating-Action Compressor
M.M. Kovetskaya and A.G. Platonov
11 Investigation of Superheated and Supercooled Water
V.P. Skripov
32 The Adiabatic Work of Nucleation
V.A. Ivan'ko, G.V. Okonishnikov and P.A. Pavlov
40 The Stability of a Metastable Van-der-Waals Fluid, II and III
V.G. Baydakov
63 Stability of the Metastable Van-der-Waals Fluid. I. The Helmholtz Energy of an Inhomogeneous System and the Surface Tension on the Planar Interface
V.G. Baydakov
76 Approximation of the Attainable Superheat Temperature of Liquids
Ye.N. Synitsyn
85 Shock Flashing of Liquids with a Free Surface
P.A. Pavlov
94 Effect of the Electrical Field on Flashing of Superheated Pentane
A.I. Zanin, Ye.N. Synitsyn and A.A. Bagrinovskiy
102 Application of the Method of "Statistical Geometry" to Analysis of the Structure of a Simple Liquid and a Crystal in the Molecular-Mechanical Model
A.Ye. Galashev
111 Effect of Turbulence on Transition to Metastability in Liquids
A.N. Vasil'yev and N.I. Khramov
116 Experimental Study of Phase Equilibria in Oxygen-Nitrogen Mixtures between 60 and 55°K
A.M. Domashenko and I.D. Blinova

122 Experimental Study of Cooling of a Liquid Oxygen-Nitrogen Binary Mixture by Vapor Removal
A.M. Domashenko and I.D. Blinova
128 Homogeneous Nucleation and Strength of Solids
V.P. Skripov
138 Metastable States of Liquid and Solid Carbon Tetrachloride
V.G. Baydakov and A.M. Rubshteyn

NUMBER 3

1 The Mixing Length Hypothesis in the Theory of Turbulence
S.S. Kutateladze
11 The Electrochemical Method for Study of Turbulence in Two-Phase Flow
V.Ye. Nakoryakov, O.N. Kashinskiy and B.K. Koz'menko
23 Experimental Determination of the Local Skin Friction Coefficient in a Turbulent Boundary Layer
V.T. Kiril'tsev, V.P. Motulevich and E.D. Sergiyevskiy
31 Diffusive Separation of Particles by Diffusion in Swirled Turbulent Flows
V.N. Arbuzov and M.I. Shilyayev
40 Dynamics of a Dust-Laden Flow in a Hyperbolic Vortex Chamber
E.P. Volchkov, A.P. Kardash and V.I. Terekhov
53 The Method of Generalized Similitude in Problems of Film Flow of Liquids
O.P. Kotel'nikova
59 Flow in a Duct with Moving Porous Walls
V.P. Beloglazov, V.P. Motulevich and E.D. Sergiyevskiy
68 Approximate Correction for the Effect of Intermixing of Flows in Communicating Subchannels on the Velocity Distribution over a Rod Bundle
A.P. Arkhipov
74 Determination of Hydraulic Loss Factors Along the Cooling Paths of Perforated Turbine Blades
Ya.I. Blyumin, L.A. Yefimchuk, Ye.N. Zotov and V.M. Repukhov
81 Hydraulic Properties of Dispersed-Annular Gas-Liquid Flows in Vertical Tubes
Yu.V. Babayants and O.V. Klapchuk
88 Experimental Study of Relaxation of Molecules and Molecular Clusters Excited in a Glow Discharge in a Supersonic Jet
A.A. Vostrikov and S.G. Mironov
95 Experimental Studies of Superheated Liquid Oxygen
A.M. Kaverin
100 Vibrational Relaxation and Radiation of Water Behind a Shock Wave
N.M. Chernyavina
107 Dynamics of Oscillating Solitary Waves
V.G. Gasenko and V.P. Ivanskiy
111 Propagation of Short-Wave Finite-Amplitude Perturbations in Aerosols
A.A. Borisov and A.F. Vakhgel't

117 Experimental Study of Fluctuations in the Voids Fraction of Air-Water Flows
A.F. Aksel'rod and B.S. Fokin
123 Settling of Aerosol Particles in Slotlike Channels in a Centrifugal Force Field
A.S. Kormin, S.A. Shutov and A.I. Yavorskiy
128 Effect of Droplet Breakup in Flows on Settling of Emulsions
A.M. Kutepov and N.V. Sokolov
135 Interaction Between a Longitudinal Perturbation Wave with a Vapor-Gas Bubble in a Polymeric Solution
S.P. Levitskiy
141 Transducers for Diagnostics of Two-Phase Flows by Acoustic Soundings
V.I. Mel'nikov and V.N. Khokhlov

NUMBER 4

1 Reduction of Skin Friction—That's Where Energy Savings Are
I.L. Povkh
14 The Effect of Roughness on the Boundary Layer
B.V. Serebro
21 Average Integral Voids Fraction Along a Steam-Generating Channel at Different Heating Flux Distributions
L.F. Fedorov and P.L. Fedorov
29 An Instrument for Determining the Continuity of Liquid Flows (Detection of Gas Phase)
V.N. Yermashkevich, Ye.S. Chistyakov, G.Ye. Zen'kovich, V.D. Razorenov, A.N. Butenko and A.V. Khrutskiy
37 Effect of the Properties of the Pumped Liquid on the Efficiency of an Ejector Used to Raise the NPSH of a Liquid N_2O_4 Pump
V.N. Yermashkevich and Ye.G. Sheludyakov
46 The Rayleigh-Taylor Instability in Thin Liquid-Metal Films in the Presence of a Magnetic Field
A.S. Koroteyev and I.N. Rey
53 Foreword
V.V. Struminskiy
55 Analytic Methods for Solving the Boltzmann Equation
V.V. Struminskiy
70 Equations of Hydrodynamics for Partially-Ionized Multicomponent Mixtures of Gases, Employing Higher Approximations of Transport Transfer Coefficients
A.F. Kolesnikov and G.A. Tirskiy
98 Verification and Correlation of Boltzmann's Kinetic Theory
V.V. Struminskiy
105 Exact Solutions of the Nonlinear Boltzmann Equation and of Its Models
A.V. Bobylev
111 The Kinetic Theory of Dense Gases
V.I. Kurochkin

121 Evaluation of Kinetic Coefficients for Moderately Dense Gases
L.V. Nimenskaya
130 The Method of Integral Transformation of the Boltzmann Equation. Analytic Studies
A.Ya. Ender and I.A. Ender
138 Improvement of the Efficiency of Statistical Modeling of Rarefied-Gas Flows on a Computer
N.N. Slavyanov and V.Ye. Yanitskiy

NUMBER 5

1 The Efficiency of Models of the Boltzmann Operator of Intermolecular Collisions
B.T. Porodnov
14 The Problem of the Boundary Conditions in the Kinetic Theory of Gases
V.N. Zhigulev and M.M. Kuznetsov
25 Boundary Conditions on a Solid Wall in a Flow of a Rarefied Gas
A.A. Pyarnpuu and V.P. Shidlovskiy
34 Statistical Mechanics of Transport Processes in the Interfacial Phase and the Problem of Boundary Conditions
A.G. Bashkirov
49 Experimental Study of the Dynamics of Interaction between a Rarefied Gas Flow and a Solid Wall by Field-Emission Microscopy
B.V. Fillipov, I.L. Sorokin and G.V. Berezin
57 On the Relationship between the Molecular Emission and Molecular Absorption Capacity of Bodies
V.I. Smirnov
62 The Kinetic Theory of Gas Mixtures
V.V. Struminskiy
68 Certain Aspects of the Kinetic Theory of Reacting Gases and Its Applications in Relaxation Aerodynamics
V.M. Kuznetsov, M.M. Kuznetsov, Ye.A. Nagnibeda and M.A. Rydalevskaya
88 Interpretation of Channels of Vibrational Relaxation from Data of Gasdynamic Measurements
B.V. Yegorov and V.N. Komarov
95 Flow of Gas Mixtures Near a Catalytic Surface
B.M. Markeyev
105 Application of the Kinetic Theory to Description of Solids-Carrying Gases
Yu.N. Savchenko
112 Application of the Method of Small Parameters to Calculation of Flows of Gases Not in Vibrational Equilibrium with Allowance for Anharmonicity of the Vibrations
N.M. Vandysheva

120 Freezing of Translational Degrees of Molecular Freedom in Multiphase Flows
A.L. Stasenko
125 The Quasiclassical Kinetic Equation for Molecular Gases with Polar Molecules
A.S. Bruyev
135 A Statistical Model of Transient Nonequilibrium Processes in Rarefied, Multicomponent Chemically-Reacting Gases
G.I. Zmiyevskaya, A.A. Pyarnpuu and V.I. Shematovich

NUMBER 6

1 The Effect of Heterogeneous Catalytic Reactions on the Heat Flux in Hypersonic Flows Over Blunt Bodies
V.P. Agafonov and M.M. Kuznetsov
8 Effect of Boundary Conditions on the Flow of a Mixture of Polyatomic Gases in a Supersonic Nozzle
V.F. Kozlov
13 Interaction between Supersonic Polyphase Flows
V.I. Blagosklonov, V.I. Garkusha, V.M. Kuznetsov, I.I. Lipatov, A.N. Minaylos, A.L. Stasenko and V.F. Chekhovskiy
19 Forces Exerted on a Sphere by an Underexpanded Jet Discharged from a Sonic Nozzle
N.B. Grishina, V.A. Rodin and V.T. Shevchuk
25 Effect of Disequilibrium on the Expansion of CO_2 Discharged into a Rarefied Medium
S.N. Abrosimov, G.A. Polyakov and V.T. Shevchuk
33 Investigating Hypersonic Flows of Low-Density Gas in an Intermittent-Action Wind Tunnel, Employing a Compressed Gas and Discharge into a Vacuum
A.S. Korolev
40 Equations of Hydrodynamics of Plan Flows in Natural Coordinates
A.I. Yesin
46 Effect of Thermally Inhomogeneous Dissected Topography on the Structure of the Air Flow Over It and on the Distribution of Pollutants
M.Ye. Berlyand, Ye.L. Genikhovich and I.G. Gracheva
64 The Diffusion of Dust from Its Ground-Level Areal Sources
R.I. Onikul and L.G. Khurshudyan
75 Horizontal Transport of Pollutants Within Built-Up Urban Areas
V.B. Kiselev
81 Diffusive Charging of Small Cloud Droplets Growing by Condensation
V.G. Baranov
89 Effect of Variability of Physical Properties of Viscous Fluids on the Point of Detachment of the Laminar Boundary Layer in a Flow Transverse to a Circular Cylinder
P.P. Vaitiekunas, A.J. Bulota and A.A. Žukauskas

98 Pressure Drop in Gas Flow in a Cylindrical Channel with Friction and Heating
V.Ye. Reznik, V.P. Danil'chenko, G.M. Gorelov and A.A. Aleksandrov
104 Minimum Fluidization Velocities in a Vertical Centrifugal Column
V.A. Borodulya, A.I. Podberezskiy and T. Kamara
109 Investigation of Spray Entrainment in Bubbling-Type Burners
B.L. Shelygin, V.I. Bakhirev and V.L. Gudzyuk
115 Effect of the Geometry of a Staggered Bundle and Tube Shape on the Vibration of the Bundle in Cross Flow
N.M. Leleyeva and N.S. Leleyev
122 Hydraulic Drag in a Bed of Spheres
V.P. Kashcheyev, A.V. Lebedev and V.N. Sorokin
129 Response Lag in the "Capillary Tube-Pressure Transducer" System (1. Experimental Investigation of the Pressure Equalization Time in the System)
R.K. Škema, M.-R.M. Dižius and V.V. Lappo
136 Response Lag in the "Capillary Tube-Pressure Transducer" System (2. Technique for Reconstructing the Inlet Pressure from the Output Pressure of the Capillary)
A.V. Stropus, M.-R.M. Dižium, R.K. Škema and V.V. Lappo
